

# SIS 2000+ Training Manual

## Health Module

### *Applications*

### *Purpose*

The Health Module consists of a total of ten applications. These applications are not necessarily arranged according to a step by step procedure. There is however, a general flow that can be followed when a school initially begins to use the Health Module. It is important to use this flow chart, as certain information must be inputted before you can access information in other areas of the Health Module.

## ***Health Flow Chart***

- ~~/~~~~/~~ Health Tables (Systems, Table Editor)
- ~~/~~~~/~~ Providers
- ~~/~~~~/~~ Health Information
- ~~/~~~~/~~ Medical History
- ~~/~~~~/~~ Office Visits
- ~~/~~~~/~~ Screen Result Edit
- ~~/~~~~/~~ Screenings
- ~~/~~~~/~~ Immunization Rules
- ~~/~~~~/~~ Immunizations
- ~~/~~~~/~~ Immunization Entry

Once you have gone through the initial set-up process above, your school/district may choose to use only a portion of the applications.

## ***Users***

The district office has the ability to limit the applications to which each faculty member has access. Permissions are granted through the Permissions Tab, located in the Faculty Editor, in the Systems Module.

Examples of people within a school who would have access to health permissions and which permissions they would have are:

### **District Office**

Every application

### **School Nurse**

Every application

### **School Administrator**

Health Information  
Medical History  
Immunizations

### **Clerical**

Immunization (Rapid) Entry  
Screening Result Edit  
Office Visits

### **Teacher**

No access

### **Note:**

This is only an example. Permissions will vary from school to school.
